

Windsor's Sheet Goods

Melamine

One of the most practical surfaces around. Prefinished and ready for use. Great for cabinetry, wall units, closet organizers and more. White is always in stock and for something unusual, other colours are also available by special order.

MDF (Medium Density Fiberboard)

Intended for interior, non-structural projects like counter tops, etc. Very smooth surface and machines well.

MDF Super Lite

1/3 lighter than regular MDF. Maintains excellent strength, surface smoothness and stability.

MDO (Medium Density Overlay)

A natural for painting. The surface is entirely smooth and grain free. Available in #1 and off grades. Oversize also available.

Sanded Plywood

Available in 1/4" to 1" thicknesses in 4' x 8' sheets as well as oversize. Canadian and American sanded available as well as off grades.

ENSTRON™ Underlayment

Made by combining recycled wood fibers with a low formaldehyde binder that makes it the most environmental-friendly underlayment choice. Moisture resistant, smooth and idea for carpet or vinyl underlay.

Slotwall

For workshops or retail display areas. The 3" on center grooves run the length of the sheets, either the 8' or 4' direction. Comes in many colours as well as unfinished MDF.
